ONGOING PROJECTS

BizCore — Cloud SaaS ERP for Nepal SMEs

Building a multi-tenant ERP replacing paper khata and manual registers with one unified platform. Covers POS, Digital Khata, VAT invoicing, inventory, HR, and expense tracking. Nepal-specific: Bikram Sambat dates, NPR, 13% VAT, and WhatsApp reminders.

NoteWise — Student Knowledge Marketplace

Developing a platform where students upload, share, and monetize study notes. Features smart recommendations, contributor profiles with ratings and badges, KYC verification for trusted sellers, and a built-in monetization engine.

FEATURED PROJECTS (Designs)

SKYTON'S — Flight Booking System

Designed an end-to-end flight booking platform and B2B admin ecosystem. The project covers the entire user lifecycle, spanning conversion-focused flight search interfaces, multi-step checkout funnels (passenger data intake, pricing grids, and secure payment), and data-dense dashboards for flight-schedule tracking, revenue reporting, and partner commission analytics. Balanced high information density with clean, component-driven UI pattern libraries.

1 DhanSetu — Mobile Wallet App

Designed and developed DhanSetu, a digital wallet app for Nepal's mobile payment ecosystem. Led the full UI/UX design in Figma, created a complete brand identity, and implemented core flows: QR payments, money transfers, and bill payments.

Delivered a clean, user-friendly interface.
